YELLASIRI RAMU

Python developer| Frontend developer
Ramuyellasiri08@gmail.com| +91 7337560830 | DOB – 28 AUG,2006

SKILLS

Programming languages
.python
.java
.c
.javascript

Tools
.Git .Github
.vscode

Technologies
.HTML .CSS .SQL

Others
.public speaking
.video editing
.Exploring new technologies

Education

B.Tech,CSE
sree Venkateswara college of engineering
2024-28| Nellore
cgpa:8.5

Intermediate,Mpc
krishna chaithanya junior college
2022-2024|Nellore
percentage:90

SSC
viswam E.M school
2020-2021
percentage: 95%

LANGUAGES

.English
.Telugu(native)

CERTIFICATIONS

.Google Student Ambassador- Google
.python full stack-EDU SKILLS
.Google AI/ML -EDU SKILLS
.Python Using AI Workshop-AI For Techies

PROJECTS

.Simplecalculator
https://github.com/Ramuroy28/simple-calculator
A simple Python calculator project that performs basic arithmetic operations (addition, subtraction, multiplication, and division) using user input and conditional logic in a command-line interface.

.Quiz Application
https://github.com/Ramuroy28/Simple-quiz
A simple Python quiz project that asks questions, takes user answers, checks correctness, and calculates a final score based on performance using basic control structures.

.To-Do List Application
https://ramuroy28.github.io/To-Do-List-App/
Created a task management app using JavaScript and Local Storage to store and manage daily tasks. Enabled add, update, and delete functionalities with real-time updates and persistent data.

.Student Report Card System
https://github.com/Ramuroy28/student-report-card
A Python project that generates a student report card by taking input details (like marks and subjects), calculating totals/averages, and displaying the final result in a structured format using basic programming logic.

.Password PROTECTOR
https://github.com/Ramuroy28/password-protector
A simple Python password protector project that secures access by asking the user for a password, verifies it using basic logic, and restricts or grants access based on correct input.

.Mushroom website
https://github.com/Ramuroy28/mushroom-website
A simple mushroom-themed website project built using basic web technologies (HTML, CSS, and possibly JavaScript) to display information, images, or content related to mushrooms with a clean user interface.
